7/7/96

Dear Gary,

This is a copy of the copy I got from Mark Allen/Jim Lesar with paperclips I added to draw a federal judge's attention to those items. I did that because I used it in an affidavit. The first page slipped in the machine. I do not know if Lesar or Allen can retrieve their original. I cannot get to the basement to search for my original. But I did file this in federal district court for the District of Columbia is a FOIA suit against the FBI and it was silent, making no response.

I am not now certain but I think the lawsuit was CAs 78-0322/0420 combined. The pisspoor apology for a judge was John Lewis Smith if that was the lawsuit.

The issue was were ticklers destroyed automatically or kept. I had alleged perjury to the FBI's case agent over what he had stated and this was part of that proof.

As best I now recall.

best,

Harold
